Portfolio

Professional Summary

Full Stack Developer fresher with hands-on experience in JavaScript, Node.js, and frontend development. Experienced in building full stack web applications using Express and databases to solve real-world problems. Currently exploring Java Full Stack development while continuously improving problem-solving, logical thinking, and end-to-end application development skills.

Education

Bachelor of Computer Applications (BCA) 2023 – 2026
Savitribai Phule Pune University

Projects

GPTflow Chatbot

- Built an AI-powered chatbot using React.js for the frontend and Node.js with OpenAI integration on the backend to enable real-time conversational interactions.
- Improved response handling and user engagement through dynamic message processing.

Post Management System

- Designed and developed a CRUD-based web application for managing posts efficiently.
- Implemented backend services using Node.js, Express, and database integration.

Doctor Appointment System

- Built an appointment booking system with role-based access for doctors and patients.
- Managed scheduling workflows, validations, and backend data processing.

ATM Banking System

- Developed a banking application supporting balance inquiry and secure transactions.
- Focused on validation, error handling, and secure logical flow.
